You will see, therefore, that the heritage of every man has been pre-ordained, so to speak, through the decision and development of some particular part of God's Plan by constant endeavor through untold centuries by the Christ Self, and that it becomes the responsibility and obligation of the outer self, while still in embodiment, to find out, without failure, mistake, interference or delay (through contemplation) what has engaged the energies of that Christ Self all through this long period of time. Then, in powerful, positive and determined activity allow the full outpouring of that Christ Self to manifest through the head, heart, hands and creative centers of the outer self; thus fulfilling its mission, saying, as the Master Jesus did: "To this end was I born - for this reason came I into the world." You have, beloved ones, instant and constant connection with your Christ Selves through the Flame in your hearts. Arise now, and be about the Father's business.

Blessings and Love,

****

Beloved Children of My Heart:

Etheric records are infallible reports of man's activities as he proceeds on his journey through form. To read those records, which are printed in the sensitive ethers that make up his aura, and also entered in his individual Book of Life, is to read the inner story of that which has been, the omissions as well as the commissions, and when one is of the awakened consciousness, it is an easy matter to trace the future effects which will spring from these causes. Besides these etheric records, there are also the fiery records held in the Mind of God of that which is to come.

These two sets of records are distinct and separate - one dealing with what has been, by which one may see that which is to come through either perfect or imperfect causes set up in an individual's past, and the other with the Divine Plan which is pre-ordained, and has nothing to do with the etheric records except that the higher plans are either helped or hindered by the human veil that stands between them and physical manifestation.

Around each lifestream, or over a locality, stand the etheric records dealing with the experiences of life through the centuries. These may be revivified for instruction or so that the lifestream may consume them (if they are of a destructive nature). When these records are fully transmuted and purified, the awakened soul sees that

the Divine Plan or Cosmic Cause is also present around the individual and above the locality. Thus when a Master attempts to foresee events, He must take several things into account. First, the Divine Plan which may be made manifest; next, the etheric records in the lifestream which will produce effects for or against the Plan; and finally the human free will which is constantly setting up new causes to either assist or interfere with the fulfillment of God's Plan.

You will see, therefore, that prophesying events concerning the human personality is an impossibility, except that the Master may state that which will be the ultimate result of the lifestream's journey because the Divine Plan is foreordained for fulfillment sooner or later, and the wise man, on learning what the Divine Plan is, tries to make it sooner.

Cosmic Law is as accurate and precise as the multiplication table. Every man is life and within life is the responsibility to use the Law of Being according to the free will of the individual and none can say him nay. As We teach the Law, We give the hints which would enable many short cuts to be made on the path and would be of great assistance to the awakening soul, but yet the application of the Law lies with the individual self. We can - and have 'stretched the Cosmic Law thin' in pointing out part and parcel of the Divine Plan to our chelas - which could be achieved by application on the part of the individual, but the law of one's own lifestream will not permit another to apply the law for him. The Master also is prohibited by Cosmic Law (even if ~~He had~~ the desire) to apply the law for His chela, any more than the wise teacher would solve a difficult problem for the student, leaving his pupil still vague as to the successful application of the theory under consideration.

The God Self and the human self are as distinct and separate as day and night. The qualities, expressions and manifestations of both are entirely different. The sign of awakening is that the soul begins to manifest through the personal self some of its Christly Qualities. This is the mystical process referred to as 'transubstantiation' - during which the Holy Spirit begins to flow through and redeem or change the nature of the outer personality. Oftimes, qualities (good or bad) lie dormant in the etheric body for centuries and are not stirred into action until this transmuting process begins. Beloved ones, call the Holy Spirit into action and co-operate fully with this Transmuting Flame that you can more quickly be set free.

Blessings and Love,

MAHA CHOHAN
